

# Vessel Slings (loops)

The Nuros range of MB-LOOPS provides an effective method for identifying, retracting and occluding arteries, veins, ureters and nerves

MB-LOOPS are available in red, blue, yellow and white and in mini, regular and large profiles. The extremely bright colours facilitate recognition and identification during surgery. MB-LOOPS are manufactured in Germany from high quality, medical grade, biocompatible and radiopaque silicon. The high quality finish and optimised elasticity are appreciated by users. MB-LOOPS are pouch-packed in pairs and boxes are designed to conveniently fit suture racks.
