

## **Novaclip** **Atraumatic** **Spring Clips**

**Novaclips are easy to use and can be positioned manually or with a Spring Clip Applicator**

Novaclips are high quality disposable, sterile vessel clips. Novaclips are available in two straight sizes and one angled design and are individually packed 15 to a shelf box. The jaws are lined with a soft, non-adherent material and closure pressure is consistently controlled by an incorporated metal spring. The three bright and distinctive colours ensure good visibility.
