

Nuros Vascular Surgery Products are now available through NHS Supply Chain

NUROS Ltd provides a comprehensive range of products for use in the treatment of vascular and cardio-thoracic diseases. We are delighted to advise that key parts of the range are now available for purchase through NHS Supply Chain for a two year period commencing 1st July 2010. The Framework Agreement (ref no FAG199, OJEU 11907-2010) includes the supply of cardiology, neuro-radiology, radiology and IABP consumables.

PRODUCTS AVAILABLE:

- Knitted and woven polyester grafts
 - ePTFE and heparin bonded grafts
 - Vascular patches
 - Carotid shunts
 - Vessel slings
 - Vein strippers
- A full product range catalogue is available upon request

MANUFACTURING:

The Nuros range of vascular products available through NHS Supply Chain are manufactured in Europe. For example, the vascular grafts are produced by Jotec GmbH in Germany at their impressive and modern facility. Latest technology ensures that product specifications and performance are optimised.

A UNIQUE COMBINATION:

Nuros Ltd provides customers with an attractive alternative in their sourcing arrangements by combining:

- Excellent product quality and advanced specifications ensuring universal clinical acceptance
- A comprehensive range enabling single-sourcing of a wide product portfolio
- Stocks held locally in Worcestershire providing next-day delivery for most areas of UK, thereby allowing stock levels to be minimised
- Outstanding levels of service and support from the experienced customer services and sales teams
- Extremely competitive pricing that can generate significant cost savings

PROVEN SUCCESS:

Nuros vascular products are now supplied to many leading vascular surgery units across the country. Not only has product quality been highly rated, but very positive feedback has been received on levels of customer service provided and the associated cost reductions.

FURTHER INFORMATION:

Should you be interested in discussing the product range in more detail, in arranging product evaluations with your surgical teams, or in reviewing potential cost savings we will be pleased to help in any way. Simply call us on 01386 429421 or email c.services@nuros.co.uk and we will make the appropriate arrangements
